

March 13, 2018

The Honorable Carl Fulgenzi
Town Supervisor
1 Town Hall Plaza,
Valhalla, NY 10595

Dear Supervisor Fulgenzi:

In follow-up to a March 5th e-mail you should have received, our next schedule change for the Hudson, Harlem and New Haven Lines goes into effect on Sunday, March 18th.

On the Hudson Line, northbound Weekend trains to Poughkeepsie will depart Grand Central Terminal two minutes later and trains to Croton-Harmon depart one minute later in order to support infrastructure improvements.

On the Harlem Line, Off-Peak and Weekend schedule changes have been made to accommodate these major projects:

- A three-year project to refurbish and upgrade White Plains station
- A switch replacement and third rail work between Brewster and Southeast
- The continuation of our aggressive track improvement program, with work taking place between Scarsdale and Hartsdale in advance of upcoming platform replacements at both stations.

Peak-hour and Reverse Peak Weekday service will not change as a result of these projects. The schedule change affects only Off-Peak and Weekend service.

On the New Haven Line, all Weekday inbound trains will make stops at Rye, Harrison and Mamaroneck one minute earlier to support track work in the area.

In addition to the enclosed timetables, our schedules are also available on our website (<http://www.mta.info>), on our Train Time App, in Grand Central Terminal and at outlying stations. The schedule change is being communicated to Metro-North customers via email alerts, notices, announcements, as well as, website and social media.

If you have any questions or would like additional copies of the new schedules, please contact my office at 212-340-3024.

Sincerely,

A handwritten signature in black ink, appearing to read "Mark E. Mannix".

Mark E. Mannix
Senior Director, Corporate and Public Affairs
